

Avalara 1099

Make 1099 compliance easy and cost-effective

Easy way online to e-file and manage 1099s, W-2s, 1095s, W-9s, and more

Avalara 1099 allows tax pros and businesses to quickly and easily create and e-file 1099s, W-2s, 1095s, 1042-S and other information returns to the IRS. Avalara 1099 also offers recipient e-delivery, e-corrections, postal delivery, address verification, TIN check, individual state filing, and participation in the Combined Federal and State Filing program.

How It Works

It's simple to e-file your returns. First, add your payer and recipients' info, either manually, via a CSV import, or by data transfer from popular payroll software.

Then review your forms and schedule them for e-file and e-delivery.

Once complete, you may download files for your records and add more payers when necessary.

E-file to the IRS and deliver to recipients

File one form or thousands

Manage multiple payers from one account

Obtain address verification services too

Utilize a paper-free process from end to end

Use just one account for all your payers

Match TIN for recipients to help prevent IRS fines

Provide secure e-delivery to recipients

Pricing that suits your business needs

No minimum fee or hidden costs

Rolling pricing across all payers

No extra fee for incremental e-filing
